

## How do we adapt our system to HF instead of HF to the system?

**Time: Monday 16th of September, 10:15 - 16:00 CET Time**

**Place: Teams**

How has implementation of Housing First changed the system in Nordic countries? Or have we adapted Housing First to our systems? What is the current relation between Housing First and health care, housing, and different housing options? What are the prospects of scaling up?

The webinar provides us with views on how Housing First and system adaptations from four different countries. The discussion on these themes continues in small groups.
